

WOOD WILLING TO GO OUT ARMY FOR CIVIL JOB

Weeks Announces Governor General's Post in Philippines May Be Offered Him.

By International News Service.
Major Gen. Leonard Wood has announced his willingness to retire from the army in order to become governor general of the Philippines. Secretary of War Weeks announced last night.
General Wood will be tendered the post of governor general when his final report on conditions in the islands is received, if the report is of the same tenor as the preliminary report already received, the secretary announced. The final report is expected to be submitted within a short time.
The willingness of General Wood to retire from the army is due to his desire to straighten out the serious economic tangle, the Secretary said.
General Wood probably will not return to the United States before taking up his new duties. He will leave Manila soon for a trip to China, and it is expected that he will be at his post as governor general early in October.
Secretary Weeks said that General Wood is due to take up his duties as provost of the University of Pennsylvania on September 1, 1922, and while he can give no assurances that he will be able to do so that he is hopeful that the Philippine situation will have been straightened out by that time.

SEEK TO IDENTIFY NEGRO AS MURDERER

PHILADELPHIA, Sept. 3.—Police here were trying to identify a negro arrested on a trolley car as Louis Lively, thirty-five, alleged slayer of Matilda Russo, seven, of Moorestown, N. J., who has been sought since June 10.
The man, who is said to answer Lively's description in almost every detail, was arrested when a former employer riding on the same car said he recognized him as Lively. The negro denies that he is the man sought, but police are almost certain of his identity.
The murder with which Lively is charged was one of the most brutal in New Jersey. The little Russo girl was said to have been lured into his home by Lively, assaulted and murdered, and then burned in the cellar. Her body was terribly mangled, supposedly with a butcher knife. She was not found until six days after her disappearance.

\$25,000 SENT WITH LETTER MAY CLEAR UP MYSTERY

NEW YORK, Sept. 3.—U. S. Commissioner Samuel H. Haddock received today at the Federal Building a plain manila envelope containing \$25,000 in negotiable treasury certificates.
A crude note in the packet was signed, "A. Haddock," and explained that the writer was returning the securities because his conscience bothered him. The commissioner recalled that on August 4, Frederic J. Kelly, a former intern, returned the securities, had been arrested in connection with the disappearance of \$27,000 worth of the certificates. His landside, a Mrs. Elizabeth Van Nestrand, was also taken into custody. At the time of their arrest both denied it.
The notes were identified this afternoon as a part of the \$27,000 Kelly is accused of having stolen. Kelly was questioned but denied sending the securities note.

BODY OF ONE AMERICAN ON ZR-2 STILL MISSING

HULL, Eng., Sept. 3.—The body of only one of the Americans who lost their lives in the recent ZR-2 disaster is now missing—that of William Julius of Los Angeles, Cal. The remains, opened today on the four latest bodies to be recovered, including those of J. T. Hancock and Lieut. H. W. Hoyt, were adjured until October 6, the date set for the others.
It is expected that the fifteen American bodies already recovered will be held here until that of Julius is recovered, when all will be sent to America.

WOMEN OF POPLAR BORO COUNCIL TO BE ARRESTED

LONDON, Sept. 3.—George Langbury, editor of the Daily Herald, the national Labor organ, who is a member of the Poplar Boro Council; his son Edgar and three other Poplar Councilors, were arrested this morning in connection with the refusal of the council to carry out the order of the London County Council to raise tax rates. The women members of the council will be arrested Monday, it was announced.
Nineteen of the thirty council members are in custody.

PRINCE OF MONACO ILL AS OLD MALADY RETURNS

PARIS, Sept. 3.—The Prince of Monaco is extremely ill at a hotel in the village of Font Romeu, in the Eastern Pyrenees. He had been hunting chamois and caught a cold, which was attended by a high fever and caused a return of an old malady.
He was taken from his villa in the mountains to Font Romeu, and Professor Bazy, hastily summoned from Paris, performed an operation upon the Prince.
Reports received here declared that the Prince is very weak.

MARYLAND FARMER ENDS HIS LIFE WITH SHOTGUN

INDIAN SPRINGS, Md., Sept. 3.—With the contents of a double-barrel shot gun through his heart, John E. Gehr, sixty-seven years old, was found lying in a pool of blood at his home here. His wife, hearing the report of the gun, arose from her bed and went down stairs to investigate.

Victims of Old Game

WHEELING, W. Va., Sept. 3.—Fourteen foreigners were found at the B. and O. depot here, all victims of an old game. They came principally from Martins Ferry and had parted with \$25 each on the promise of a job on a pipe line at Spencer, W. Va. A foreigner, claiming to be Andy Tony, of Pittsburgh, had obtained their money and then vanished.

England Grows Healthier, Birth Rate is Higher

LONDON, Sept. 3.
THERE is a steady improvement in the public health. That is the general summing up of the report of Sir George Newman, the chief medical officer of the ministry of health, published for last year.
The birth rate jumped from 18.5 in 1919 to 25.4 in 1920; the death rate showed a steady decline at most ages, and infant mortality (80 per 1,000 births) is the lowest ever recorded, though there is still much unnecessary loss of life, both of mothers and infants.
Trivial sickness becomes a serious feature in the aggregate, the expenditure on benefit for loss of time through this cause amounting to no less than 270,000 years per annum for the insured population alone.
The decline in infant mortality is held to be due to general enlightenment on the part of the mothers, and the increasing popularity of welfare centers, to which 150,000 mothers take their babies regularly.
Maternal deaths, however, show an increase, and the need for more maternity homes is insisted upon.
Influenza was responsible for a considerable rise in the death rate during the first six months, and there were 890 cases of sleep sickness during the year.

SAYS SON SLEW MAN THREE YEARS AGO

Father Causes Preston Bryant's Arrest on Charge of Killing John P. Fleming.

FREELING, Va., Sept. 3.—Preston Bryant has been captured by the authorities of Wise county, after some thrilling experiences. For some time, according to the county officials, he had been terrorizing the people of the upper section of Cumberland Mountain.
The case against Bryant for which his recent arrest was effected is this: About three years ago John Preston Fleming was shot and killed in the Cumberland section of Wise county, but no proof could be had as to who committed the deed. Some time since, "Bud" Bryant, the father of the man now in custody, charged his son with the crime, and upon this charge Preston was apprehended. It appears that there had been a break in the amicable relations of father and son which shaped the course of events.
John Preston Fleming, the slain man, and Preston Bryant, now in custody, were first cousins. Fleming's father and Bryant's mother being brother and sister.
Two of Bryant's brothers are now serving a term in the Kentucky penitentiary for an attempt made upon the lives of two citizens of Pike county.

POLICE RAIDS SNARE TWO AS LIQUOR SUSPECTS

Fifty quarts of whiskey, five revolvers and a rifle were seized by the police yesterday evening when they raided the home of James T. Holmes, colored, 225 Brooks court northwest, known to the police as "Legion Jim".
The raiding squad, composed of Prohibition Agent Harold R. Stephenson, Lieutenant Sheetz, Sergeants Gray and Roper and Precinct Detective Rone, found the liquor in a closet. Mabel Hill, colored, 325 Syracuse court and only fourteen years old, was arrested for the second time yesterday. According to Policemen Mansfield, Berry and Rosenberg and Prohibition Agent Stephenson, who raided her house yesterday, she was hiding twenty quarts of liquor behind a trap door when they entered the place.

HOLD YOUTHS ON CHARGE OF ATTEMPTED FRAUD

Charged with conspiring to defraud the Postal Telegraph company out of \$50, Robert Lee Coggins, alias "Big Boy", 411 Sixth street northwest, and Jefferson B. Varner, nineteen years old, 808 Twelfth street northwest, were locked up last night by Detective Sergeants Keck, Bradley, Embrey and Thompson.
It is alleged that the youths forced the name of Duran Jennings, of Spartanburg, S. C., to a telegram asking money from Jennings' father. Young Jennings is in this city and the youths, knowing this, are said to have wired Jennings' father asking that he send \$50.

W. VA. BANKERS TO TAKE UP ROAD BOND QUESTION

HUNTINGTON, W. Va., Sept. 3.—Decisions of importance to the sale of the road bonds for West Virginia are expected to be made at the State convention to be made of bankers in Parkersburg September 14-15, according to Huntington bankers.
Since the announcement of the State convention, the bankers of the State will be expected to absorb the \$15,000,000 issue nothing has been done. The bankers were quick to protest their ability to take such action, stating that financial depression rendered such a course almost foolhardy.
Every bank in the State will be represented at the convention.

Found Dying On Track

HINTON, W. Va., Sept. 3.—Dick Ault, aged twenty-four, white, was found on the railroad track at Montgomer station with both legs cut off. He was sent to the Coal Valley Hospital at that place where he died without regaining consciousness.

N. Y. MERCHANTS OPPOSE FORD'S SHOWS OFFER

Urge Refusal on Ground Manufacturer's Estimates Are Absurdly Low.

Universal Service.
A protest against acceptance of the offer of Henry Ford for the government nitrate plant at Muscle Shoals was presented to Secretary of War Weeks yesterday by William F. Morgan on behalf of the Merchants' Association of New York.
The protest declared that acceptance of the Ford offer would cause the government to lose \$164,000,000 during the 100 years the lease would be in force. Mr. Ford proposed to pay \$5,000,000 for the nitrate plant itself, which has been completed at a cost of \$27,855,135, and is ready for immediate operation, the protest said.
The Merchants' Association took issue with Mr. Ford's estimates of the cost of completing the hydro-electric power plants and on which he based an amortization plan under which he would pay \$168,000,000 in rental to the federal government during 100 years.
"Accepting an approximately correct of the most recent estimates of the government engineers, the additional outlay required to complete the hydro-electric power plants will approximate \$80,000,000, instead of the \$23,000,000 to which Mr. Ford limits his obligation," the protest said.
"On the same basis, the entire capital investment of the Government will be approximately \$77,000,000, instead of \$45,000,000, to which Mr. Ford restricts his amortization liability. Mr. Ford's proposal provides for the amortization of \$45,000,000, as against the \$60,000,000 new investment required and the \$17,000,000 investment already made, thus leaving the Government to stand an ultimate loss of \$15,000,000 of the new capital required, in addition to the loss of the \$17,000,000 already invested, or a total capital loss of \$32,000,000."
The Government's capital investment and interest at 5 per cent on the \$60,000,000, which the Merchants' Association declared it would cost to complete the power plants, would total \$377,000,000 in the 100 years in which the Ford lease would operate. To offset this, the association declared, Mr. Ford proposed to pay only \$213,000,000, leaving a net loss to the Government of \$164,000,000.

VA. PROPHETS EXPECT A LONG, COLD WINTER

RICHMOND, Va., Sept. 3.—An early fall and a hard, cold winter is the prospect this year, according to those Virginians who study nature. A thickening of moss on the northern side of trees has been noticed and, indeed, on some trees there is already a girdle of moss. This latter is very unusual and is said to presage a winter which will require all the protective forces of nature to save plant and tree life.
Woodmen have also noticed that the fur on wild animals is heavier than is usual at this time of year, and the little denizens of the forest are putting away a supply of food for the coming months of cold weather.
Working on the theory of compensation, wise men declare that this cold world is due much rain and cold weather. The present summer has been not only the hottest but the driest in many years.

DEFER RESERVE BANK CASE TILL OCTOBER

RICHMOND, Va., Sept. 3.—Maxwell Wallace, counsel for the Federal Reserve Bank of Richmond, was informed by the judge of the Superior Court of Monroe county, N. C., that the suit of the Federal Reserve Bank against nearly 200 North Carolina State banks, involving the constitutionality of the statute providing for the charge of a collection fee on checks drawn from without the State, will not be tried at the current term. It was stated that no court will be held after September 1 until the October term.
This suit, instituted to protect the par clearance system of the Federal Reserve Bank of Richmond, was recently remanded to the State courts by the United States District Court of Western North Carolina, which ruled that it held no jurisdiction in the matter.

WOUNDED HARVARD MAN CRAWLS 4 MILES TO CAMP

PORTLAND, Me., Sept. 3.—Leland C. Wyman, a teaching fellow at Harvard, who was shot in the right leg by the accidental discharge of his revolver near Saddleback mountain on Tuesday, has been brought to a local hospital.
He fell from a cliff, causing the discharge of the weapon, which was strapped to his side. He crawled four miles toward his camp, his wife carrying him the last 200 yards.
It was two days before a physician could be found. Then the wounded man was taken twelve miles on a stretcher to Quosocot and put on a train.

SKELETONS OF 15 INDIANS DISCOVERED IN DELAWARE

REHOBETH, Del., Sept. 3.—Fifteen skeletons, with Indian pottery have been unearthed near here by Joseph Wigglesworth, a student of archeology.
No relics were found by which the identity of the bones could be determined.
The land is known to have been the resort of Delaware Indians in earlier times. The Rev. J. Morehart, of Cleveland, assisted in the work.
Four of the skeletons had the heads severed and lying by the feet.

GIRL FATALLY HURT AS TWO AUTOS COLLIDE

ANCOCK, Md., Sept. 3.—Lucille M. Weller, aged thirteen years, daughter of Frank Weller, Millstone merchant, died at the Washington County Hospital late from a fractured skull.
The injury was sustained when the automobile in which she was riding with her father, collided with that of Dr. J. C. Collins, Greenbelt, W. Va., about one mile west of Hyelett's cross Roads, on the western pike.

COY COUPLE MARRIED 11 YEARS; KEPT SECRET

LONG BRANCH, Sept. 3.—Donald A. Manson, Jr., and Miss Estella V. Hartman decided to keep their marriage secret for a short time, and did it for eleven years.
They have just announced they were married in Asbury Park in June, 1910.

11 MEN IN LIFEBOAT ARE PICKED UP AT SEA

SAN FRANCISCO, Sept. 3.—A lifeboat with eleven men was picked up at sea last night by the tug San Lion. The boat was believed to be the one missing from the Canadian Importer, which was found 500 miles west of San Francisco two days ago by the Canadian Observer. A wireless message from the Sea Lion did not say where the lifeboat was found.

EDUCATIONAL EDUCATIONAL EDUCATIONAL

Professional Courses of Collegiate Grade in ACCOUNTANCY

Courses covering all phases of Accountancy in a thorough and practical manner, qualifying the student for the work of the Accountant, in either public or private practice and leading to the degree of Bachelor of Commercial Science.

(Note: School Building Open Labor Day)

The Need of "Searching Parties" Tells a Story of Inefficiency

Business men are too busy to be patient long. They want what they want when they want it. It's up to the file clerk to find the letter or other paper called for.
If she has been properly trained, there will be no need of "searching parties" or ugly consequences. Realizing this, business men send their file clerks to our school for instruction, where a capable regular staff and the best special lecturers are available. Individuals come of their own accord, also, that they may improve their present position with the same firm or elsewhere.
Your own problem will be simplified by attending a Day or Evening Class
